Contents–Volume 70
January through December 1999

JANUARY 1999

ORIGINAL RESEARCH

Endocrine Status and LBNP-Induced Hormone Changes During a 438-Day Spaceflight: A Case Study—*H. G. Hinghofer-Szalkay, V. B. Noskov, A. Rössler, A. I. Grigoriev, R. Kvetnansky, and V. V. Polyakow* 1

Validation of Impedance Cardiography During Lower Body Negative Pressure—*R. W. Gotshall, L. R. Davrath, W. Z. Sadeh, C. C. Coonts, G. J. Luckasen, T. R. Downes, and A. Tucker* 6

Response to 45° Head-Down Tilt as Measured by Organ Weight/Body Weight Ratios and Spiral Computed Tomography—*M. L. Witten, M. P. Balagtas, R. L. Keller, A. M. Hays, E. J. Braun, J. Vargas, M. T. Padilla, and J. N. Hall* 11

Decongestant Effects on Hemodynamics at Rest, Exercise, and Recovery from Exercise During −6° of Head Down Tilt—*J. M. Rosene, J. A. Rosene, D. L. Koczajowski, and V. J. Paolone* 15

Exercise-Induced Altitude Decompression Sickness—*A. A. Pilmanis, R. M. Olson, M. D. Fischer, J. F. Wiegman, and J. T. Webb* 22

Two Different Components of Contingent Negative Variation (CNV) and Their Relation to Changes in Reaction Time Under Hypobaric Hypoxic Conditions—*M. Takagi and S. Watanabe* 30

Effect of Glucose-Water Ingestion on Exercise Thermoregulation in Men Dehydrated After Water Immersion—*A. S. Dearborn, A. C. Ertl, C. G. R. Jackson, P. R. Barnes, J. L. Breckler, and J. E. Greenleaf* 35

Cold Stress Increases Lipolysis, FFA R_a and TG/FFA Cycling in Humans—*A. L. Vallerand, J. Zamecnik, P. J. H. Jones, and I. Jacobs* 42

Long-Term Neuropsychological Effects in Non-Saturation Construction Divers—*R. Bast-Pettersen* 51

Bioelectric Impedance as an Index of Thoracic Fluid—*R. W. Gotshall and L. R. Davrath* 58

Performance of Red-Green Color Deficient Subjects on the Farnsworth Lantern (FALANT)—*J. Birch and S. J. Dain* .. 62

CLINICAL MEDICINE

Acute Carbamate and Organochlorine Toxicity Causing Convulsions in an Agricultural Pilot: A Case Report—*G. G. Cable and S. Doherty* 68

REVIEW ARTICLE

High Altitude Living: Genetic and Environmental Adaptation—*G. Ramirez, P. A. Bittle, R. Rosen, H. Rabb, and D. Pineda* . 73

HISTORICAL NOTE

Physician Casualties in U.S. Aerospace Medical Research—*J. R. Dille* 82

FEBRUARY 1999

EDITORIAL

Editor's Commentary: Many Thanks—*G. R. Holt* 101

ORIGINAL RESEARCH

The Transoceanic Air Evacuation of Unstable Angina Patients—*C. Y. Castillo and T. J. Lyons* 103

A Comprehensive Noise Survey of the S-70A-9 Black Hawk Helicopter—*R. B. King, A. J. Saliba, and J. R. Brock* 107

Drinking and Flying: A Structural Model—*E. Maxwell and D. Harris* 117

Is Residual Impairment After Alcohol an Effect of Repeated Performance?—*K. Millar, F. Finnigan, and R. H. Hammersley* 124

The Relationship of Physical Fitness on Pilot Candidate Selection in the Israel Air Force—*J. R. Hoffman, A. Kahana, L. Chapnik, A. Shamiss, and B. Davidson* 131

The Epidemiology of Cold Injury in Antarctica—*T. J. Cattermole* 135

CLINICAL MEDICINE

Three Cases of Spinal Decompression Sickness Treated by U.S. Navy Treatment Table 7—*M. Ito, H. Domoto, Y. Tadano, and A. Itoh* 141

TECHNICAL NOTE

A Bloodborne Pathogen Program in Civilian Aircraft Accident Investigation—*G. J. Salazar, C. A. DeJohn, R. Hansrote, and O. R. Key* 146

Premature Ventricular Contractions During +Gz With and Without Pressure Breathing and Extended Coverage Anti-G Suit—*U. I. Balldin, A. Tong, J. A. Marshall, and M. Regna* 209

The Heart Is Not Necessarily Empty at Syncope—*L. R. Davrath, R. W. Gotshall, A. Tucker, W. Z. Sadeh, G. J. Luckasen, T. R. Downes, and C. C. Coonts* 213

Hoffmann-Reflex is Delayed During 6° Head-Down Tilt With Balanced Traction—*Y. Haruna, J. R. Styf, N. Kahan, and A. R. Hargens* 220

Quantitative Phase Contrast Images to Quantitate Flow In a Rat Model of Microgravity—*A. M. Hays, R. L. Keller, A. F. Gmitro, M. I. Alpbach, K. R. Sridhar, M. P. Balagtas, and M. L. Witten* 225

Performance Evaluation in Analogue Space Environments: Adaptation During an 8-Month Antarctic Wintering-Over Expedition—*J. Sauer, G. R. J. Hockey, and D. G. Wastell* 230

Maintenance of Complex Performance During a 135-Day Spaceflight Simulation—*J. Sauer, G. R. J. Hockey, and D. G. Wastell* 236

Gravitational Changes Affect Tibial Growth Plates According to Hert's Curve—*D. Montufar-Solis and P. J. Duke.* 245

Plasma Amino Acids During Human Spaceflight—*T. P. Stein and M. D. Schluter* 250

EEG Topographical Analysis of Spatial Disorientation—*O. Tokumaru, K. Kaida, H. Ashida, I. Yoneda and J. Tatsuno* 256

Ataxia Following Exposure to a Virtual Environment—*E. M. Kolasinski and R. D. Gilson* 264

Analysis of Cerebral Bioelectrical Activity During the Compression Phase of a Saturation Dive—*L. Pastena, G. Mainardi, F. Faralli, and R. Gagliardi* 270

The Use of an Independent Visual Background to Reduce Simulator Side-Effects—*J. D. Prothero, M. H. Draper, T. A. Furness, III, D. E. Parker, and M. J. Wells* 277

Thermal and Metabolic Responses of Women With High Fat Versus Low Fat Body Composition During Exposure to 5 and 27°C for 120 Min—*E. L. Glickman-Weiss, A. G. Nelson, C. M. Hearon, R. Prisby, and N. Caine* 284

MARCH 1999, Section II, Supplement
Vibroacoustic Disease

PREFACE v

OVERVIEW vi

SECTION I. INTRODUCTION

The Vibroacoustic Disease–An Emerging Pathology—*N. A. A. Castelo Branco and E. Rodriguez* A1

Noise-Induced Extra-Aural Pathology: A Review and Commentary—*M. Alves-Pereira* A7

Noise Assessment During Aircraft Run-Up Procedures—*J. L. Bento Coelho, A. Ferreira, J. Serrano, and N. A. A. Castelo Branco* A22

SECTION II. CLINICAL FEATURES

A Unique Case of Vibroacoustic Disease: A Tribute to an Extraordinary Patient—*N. A. A. Castelo Branco* A27

The Clinical Stages of Vibroacoustic Disease—*N. A. A. Castelo Branco* A32

Sister Chromatid Exchange Analysis in Workers Exposed to Noise and Vibration—*M. J. Silva, A. Carothers, N. A. A. Castelo Branco, A. Dias, and M. G. Boavida* A40

SECTION III. CARDIORESPIRATORY INVOLVEMENT

Echocardiographic Evaluation in 485 Aeronautical Workers Exposed to Different Noise Environments—*W. Marciniak,*

E. Rodriguez, K. Olszowska, O. Atkov, I. Botvin, A. Araujo, F. Pais, C. Soares Ribeiro, A. Bordalo, E. Prazeres de Sá, D. Ferreira, J. Loureiro, M. S. N. Castelo Branco, and N. A. A. Castelo Branco A46

The Human Pericardium in Vibroacoustic Disease—*N. A. A. Castelo Branco, A. P. Águas, A. Sousa Pereira, E. Monteiro, J. I. G. Fragata, F. Tavares, and N. R. Grande* A54

Airway Flow Limitation in Patients with the Vibroacoustic Disease—*J. M. Reis Ferreira, A. R. Couto, N. Jalles-Tavares, M. S. N. Castelo Branco, and N. A. A. Castelo Branco* A63

Morphological Changes in Rat Lung Parenchyma Exposed to Low Frequency Noise —*N. R. Grande, A. P. Águas, A. De Sousa Pereira, E. Monteiro, and N. A. A. Castelo Branco* A70

Morphofunctional Study of the Rat Pleural Mesothelia Cells Exposed to Low Frequency Noise—*A. De Sousa Pereira, N. R. Grande, E. Monteiro, M. S. N. Castelo Branco, and N. A. A. Castelo Branco* A78

The Effect of Chronic Exposure to Low Frequency Noise on the Rat Tracheal Epithelia—*A. De Sousa Pereira, A. P. Águas, N. R. Grande, J. Mirones, E. Monteiro, and N. A. A. Castelo Branco*..... A86

SECTION IV. NEUROLOGICAL AND PSYCHOLOGICAL DISORDERS

Neurological Aspects of Vibroacoustic Disease—*A. J. F. Martinho Pimenta and N. A. A. Castelo Branco*..... A91

Balance Disturbances in Individuals With Vibroacoustic Disease—*A. J. F. Martinho Pimenta, M. S. N. Castelo Branco, and N. A. A. Castelo Branco*..... A96

The Palmo-Mental Reflex in Vibroacoustic Disease—*A. J. F. Martinho Pimenta and N. A. A. Castelo Branco*..... A100

ERP P300 and Brain Magnetic Resonance Imaging in Patients with Vibroacoustic Disease—*M. G. Pimenta, A. J. F. Martinho Pimenta, M. S. N. Castelo Branco, J. M. C. Silva Simões, and N. A. A. Castelo Branco* A107

Effects of Occupational Exposure to Low Frequency Noise on Cognition— *L. M. P. Gomes, A. J. F. Martinho Pimenta, and N. A. A. Castelo Branco*..... A115

Facial Dyskinesia Induced by Auditory Stimulation: A Report of Four Cases—*A. J. F. Martinho Pimenta and N. A. A. Castelo Branco* A119

Epilepsy in the Vibroacoustic Disease: A Case Report—*A. J. F. Martinho Pimenta and N. A. A. Castelo Branco*..... A122

SECTION V. IMMUNOLOGICAL CHANGES

Effect of Low Frequency Noise Exposure on BALB/C Mice Splenic Lymphocytes—*A. P. Águas, N. Esaguy, N. Grande, A. P. Castro, and N. A. A. Castelo Branco* A128

Acceleration of Lupus Erythematosus-Like Processes by Low Frequency Noise in the Hybrid NZB/W Mouse Model—*A. P. Águas, N. Esaguy, N. R. Grande, A. P. Castro, and N. A. A. Castelo Branco* A132

Effects of Low Frequency Noise Upon the Reaction of Pleural Milky Spots to Mycobacterial Infection—*M. J. R. Oliveira, A. De Sousa Pereira, A. P. Águas, N. R. Grande, E. Monteiro, I. Serrano, and N. A. A. Castelo Branco*..... A137

Increase in $CD8^+$ and $CD4^+$ T Lymphocytes in Patients with Vibroacoustic Disease—*A. P. Castro, A. P. Águas, N. R. Grande, E. Monteiro, and N. A. A. Castelo Branco* A141

SECTION VI. THE NOISE CHALLENGE

Vibroacoustic Disease–Some Forensic Aspects—*N. A. A. Castelo Branco, E. Rodriguez, M. Alves-Pereira, and D. R. Jones* A145

AFTERWORD: The Cost of Surrender—*E. Rodriguez*..... A152

ACKNOWLEDGMENTS A154

APRIL 1999

ORIGINAL RESEARCH

Correlates of Pilot Fatality in General Aviation—*G. Li and S. P. Baker* 305

Analysis of the Gz Environment During Air Combat Maneuvering in the F/A-18 Fighter Aircraft—*D. G. Newman and R. Callister* 310

Incidence and Outcomes of Anterior Cruciate Ligament Reconstruction Among U.S. Army Aviators—*P. J. Belmont, S. B. Shawen, K. T. Mason, and S. J. Sladicka*.. 316

Aircrew Lumbar Supports: An Update —*D. A. Winfield* 321

Combined Caffeine and Ephedrine Ingestion Improves Run Times of Canadian Forces Warrior Test—*D. G. Bell and I. Jacobs* ... 325

CLINICAL MEDICINE

+Gz Associated Stenosis of the Cervical Spine Canal in Fighter Pilots—*O. Hämäläinen, S. K. Toivakka-Hämäläinen, and P. Kuronen* ... 330

A Sensitive Bladder: An Atypical Presentation of Cancer in a U.S. Army Pilot—*R. M. Carter and J. T. Mansfield* ... 335

Difficulties Inherent in Certifying People with Gender Dysphoria—*M. Feinberg*... 338

TECHNICAL NOTE

Modeling Analysis of Women Litter Bearers During Heat Stress—*W. R. Santee, K. K. Kraning, and W. T. Matthew* ... 340

Testing of the AVL OPTI 1 Portable Blood Gas Analyzer During Inflight Conditions—*D. Maillard, F. Ferracci, H. Marotte, S. Canot, T. Tran Minh, and P. Finetti*... 346

ABSTRACTS OF THE 1999 ASMA SCIENTIFIC MEETING ... 357

MAY 1999

ORIGINAL RESEARCH

A 25-Year Prospective Study of Visual Acuity in the Japan Air Self Defense Force Personnel—*A. Kikukawa, S. Yagura, and T. Akamatsu* ... 447

Degradation of Visual Pursuit During Sustained +3 Gz Acceleration—*B. Cheung and K. Hofer* ... 451

Electrical and Contractile Parameters of Muscle in Man: Effects of 7-Day "Dry" Water Immersion—*Y. Koryak* ... 459

Renal, Endocrine, and Cardiovascular Responses During Head-Out Water Immersion in Legless Men—*F. Tajima, S. Sagawa, J. R. Claybaugh, and K. Shiraki* ... 465

Cardiovascular Effects of the Breathhold Used in Determining Pulmonary Diffusing Capacity—*R. W. Gotshall and L. R. Davrath* ... 471

Improved High Altitude Hypoxic Tolerance and Amelioration of Anorexia and Hypophagia in Rats on Oral Glutamate Supplementation—*D. Kumar, A. Bansal, P. Thomas, S. S. Mongia, S. K. Sharma, M. Sairam, S. K. Grover, M. V. Singh, D. Prasad, G. Ilavazhagan, and W. Selvamurthy* ... 475

Wet Bulb Globe Temperature (WBGT)—To What Extent is GT Essential?—*D. S. Moran and K. B. Pandolf*... 480

5-HT_3 Receptor Antagonists Ameliorate Emesis in the Ferret Evoked by Neutron or Proton Radiation—*G. L. King, B. M. Rabin, and J. K. Weatherspoon*... 485

Naps and Modafinil as Countermeasures for the Effects of Sleep Deprivation on Cognitive Performance—*D. M. Batéjat and D. P. Lagarde* ... 493

Influence of Centrifugation and Hindlimb Suspension on Testerone and Corticosterone Excretion in Rats—*R. M. Ortiz, T. J. Wang, C. E. Wade* ... 499

Particulates from PTFE Degradation in Terrestial and Microgravity—*R. Srivastava, J. T. McKinnon, and P. Todd*... 505

Myogenin, MyoD, and Myosin Heavy Chain Isoform Expression Following Hindlimb Suspension—*P. E. Mozdziak, M. L. Greaser, and E. Schultz* ... 511

Outcome After Treatment of Neurological Decompression Illness is Predicted by a Published Clinical Scoring System—*A. D. Pitkin, P. J. Benton, and J. R. Broome*..... 517

TECHNICAL NOTE

Self-Generated Lower Body Negative Pressure Exercise—*D. E. Watenpaugh, R. E. Ballard, G. A. Breit, and A. R. Hargens* .. 522

JUNE 1999

ORIGINAL RESEARCH

Homebuilt Aircraft Crashes—*A. Hasselquist and S. P. Baker*... 543

British Airways Flightdeck Mortality Study, 1950–1992—*D. Irvine and D. M. Davies* 548

Muscle Fatigue Caused by Repeated Aerial Combat Maneuvering Exercises—*J. Oksa, O. Hämäläinen, S. Rissanen, M. Salminen, and P. Kuronen* ... 556

Echocardiographic Evaluation of Female Centrifuge Subjects for Chronic Changes in Cardiac Function—*W. B. Albery* 561

Neuroendocrine Responses to Psychological Workload of Instrument Flying in Student Pilots—*T. K. Leino, J. Leppäluoto, A. Ruokonen, and P. Kuronen* ... 565

Neuroendocrine Responses and Psychomotor Test Results in Subjects Participating in Military Pilot Selection—*T. K. Leino, J. Leppäluoto, A. Ruokonen, and P. Kuronen* 571

Moderate Sodium Restriction Does Not Alter Lower Body Negative Pressure Tolerance—*L. R. Davrath, R. W. Gotshall, A. Tucker, W. Z. Sadeh, G. J. Luckasen, T. R. Downes, and C. C. Coonts* 577

Thermal Regulation in the Heat During Exercise After Caffeine and Ephedrine Ingestion—*D. G. Bell, I. Jacobs, T. M. McLellan, M. Miyazaki, and C. M. Sabiston* 583

Fibroblast Response to Rapid Decompression and Hyperbaric Oxygenation—*E. H. Piepmeier and J. E. Kalns*..... 589

CLINICAL MEDICINE

Hyperbaric Chamber-Related Decompression Illness in a Patient with Asymptomatic Pulmonary Sarcoidosis—*K. Tetzlaff, M. Reuter, J. Kampen, and C. Lott* 594

TECHNICAL NOTE

Reduce Risk of Inducing Spatial Disorientation Using Physiologically Compatible Ground Lighting—*R. T. Schmidt*..... 598

Cognitive Performance Over 7 Days in a Distressed Submarine—*G. M. Slaven and C. M. Windle* 604

SCIENCE NEWS NOTE

Specialty Competencies for Residents in Aerospace Medicine—*T. T. Yasuhara, R. E. Dodge, R. T. Jennings, and M. R. Valdez* 609

HISTORICAL NOTE

Samuel Franklin Cody: Aviation and Aeromedical Evacuation Pioneer—*T. M. Gibson* 612

JULY 1999

ORIGINAL RESEARCH

Comparison of Short-Term Aerobic Training and High Aerobic Power on Tolerance to Uncompensable Heat Stress—*S. S. Cheung and T. M. McLellan*..... 637

Pulmonary and Auditory Function Among Experienced Construction Divers: A Cross-Sectional Study—*M. Skogstad, T. Haldorsen, and H. Kjuss* 644

Low-Altitude Overflights of Fighters and the Risk of Hearing Loss—*P. Kuronen, Pääkkönen, and S. Savolainen*..... 650

Carbon Dioxide Accumulation, Walking Performance, and Metabolic Cost in the NASA Launch and Entry Suit—*P. A. Bishop, S. M. C. Lee, N. E. Conza, L. L. Clapp, A. D. Moore, Jr., W. J. Williams, M. E. Guilliams, and M. C. Greenisen*.... 656

Does Over-Accomodation Occur When Using Aircraft Head-Up Displays?—*J. S. Wolffsohn, G. K. Edgar, H. E. Stone, M. Williams, and N. A. McBrien*..... 666

Different Responses of Cerebral Vessels to −30° Head-Down Tilt in Humans—*Z. Hu, G. Zhao, Z. Xiao, X. Chen, C. Zhong, and J. Yang* 674

Cancer Incidence in Republic of Bulgaria Aircrew, 1964–1994—*L. Milanov, D. Dimitrov, and S. Danon*..... 681

Report of Ejections in the Spanish Air Force, 1979–1995: An Epidemiological and Comparative Study—*J. M. Moreno Vázquez, M. R. Durán Tejeda, and J. L. García Alcón* 686

CLINICAL MEDICINE

Cerebral Artery Blood Velocity in Normal Subjects During Acute Decreases in Barometric Pressure—*E. Taubøll, W. Sorteberg, J. O. Owe, K-F. Lindegaard, K. Rusten, A. Sorteberg, and L. Gjerstad* 692

Cerebral Arterial Gas Embolism in Air Force Ground Maintenance Crew—A Report of Two Cases—*C-T. Lee*..... 698

Hyperhomocysteinaema and Upper Extremity Deep Venous Thrombosis: A Case Report—*G. G. Cable* 701

Pharmaceutical Use by U.S. Astronauts on Space Shuttle Missions—*L. Putcha, K. L. Berens, T. H. Marshburn, H. J. Ortega, and R. D. Billica* 705

International Members B115
Aerospace Medicine Experts List B119
Fellows B121
Honorary Fellows B125
Associate Fellows B126
Home Office Staff B128
Constituent and Affiliated Organizations B129
Corporate and Sustaining Members B131
Annual Lecturers B133
Annual Awards B134
President's Citation B138
Wing Officers B138
Standing Committee Chairs B139
Standing Committees B140
Addendum to Membership Listing B143

OCTOBER 1999

ORIGINAL RESEARCH
Vestibular Autorotation Test in Primary Selection of Military Student Pilots Using Neural Networks—*M. Klokker, L. Brock-Nannestad, P. Mikines, A. F. Johnsen, P. Garhøj, and S. Vesterhauge* 959

Effects of Gender of Subjects and Experimenter on Susceptibility to Motion Sickness—*M. D. Jokerst, M. Gatto, R. Fazio, P. J. Gianaros, R. M. Stern, and K. L. Koch* 962

The Effects of Roll vs. Pinch Rotation in Humans Under Orthostatic Stress—*B. Cheung, K. Hofer, and L. Goodman* 966

Effect of Aerobic Training on Orthostatic Tolerance, Circulatory Response, and Heart Rate Dynamics—*L.-F. Zhang, J. Zheng, S.-Y. Wang, Z.-Y. Zhang, and C. Liu* 975

Significance of Low Hematocrit Levels in Asymptomatic Young Adults: Results of 15 Years Follow-Up—*P. Froom, J. Benbassat, A. Kiwelowicz, J. Erel, B. Davidson, and J. Ribak* 983

Dantrolene and Recovery from Heat Stroke—*D. Moran, Y. Epstein, M. Wiener, and M. Horowitz* 987

Evaluation of Cutaneous Insensible Water Loss During Hyperbaric Exposure in Humans—*H. Yamaguchi, M. Mohri, and K. Shiraki* 990

Cross Validation of USARIEM Heat Strain Prediction Models—*B. S. Cadarette, S. J. Montain, M. A. Kolka, L. Stroschein, W. Matthew, and M. N. Sawka* 996

Blood Ammonium Response During Incremental and Steady-State Exercise in Military Staff—*C. Yges, R. Ureña, C. León, L. M. López-Mojares, and J. L. Chicharro* 1007

The Effects of Betaxolol Hydrochloride Ophthalmic Solution on Intraocular Pressures During Transient Microgravity—*T. J. Pattinson, C. R. Gibson, F. K. Manuel, S. L. Bishop, and W. F. March* 1012

Detecting Transient Cognitive Impairment with EEG Pattern Recognition Methods—*A. Gevins and M. E. Smith* 1018

TECHNICAL NOTE
Biochemical Characteristics of β-Adrenoceptors in Rats After an 18-Day Spaceflight (LMS-STS78)—*S. Fagette, L. Somody, F. Bouzeghrane, K. Eward, R. Briggs, M. Viso, N. Gallo-Bon, C. Gharib, and G. Gauquelin* 1025

REVIEW ARTICLE
Survey of USAF Flight Surgeons Regarding Clinical Preventive Services, Using CHD as an Indicator—*P. J. Lavallee and V. P. Fonseca* 1029

HISTORICAL NOTE
Record and Around the World Flights Through Singapore by Women—*J. R. Dille* 1038

NOVEMBER 1999

ORIGINAL RESEARCH

Degenerative Changes of the Spine of Fighter Pilots of the Royal Netherlands Air Force (RNLAF)—*I. J. M. Hendriksen and M. Holewijn* 1057

Speech Intelligibility in Aircraft Noise as a Function of Altitude—*A. S. Wagstaff, O. Tvete, and B. Ludvigsen* 1064

Exercise Training and Intensity Does Not Alter Vascular Volume Responses in Women—*J. D. Branch, III, R. R. Pate, S. P. Bourque, V. A. Convertino, J. L. Durstine, and D. S. Ward* 1070

Gender Differences in Motion Sickness History and Susceptibility to Optokinetic Rotation-Induced Motion Sickness—*A. Hye-Young Park and S. Hu* 1077

Immersion of Distal Arms and Legs in Warm Water (AVA Rewarming) Effectively Rewarms Mildly Hypothermic Humans—*L. Vanggaard, D. Eyolfson, X. Xu, G. Weseen, and G. G. Giesbrecht* 1081

Urea and Osmotic Excretion in Rats Exposed to Chronic Centrifugation—*R. M. Ortiz, T. J. Wang, and C. E. Wade* 1089

Ag^+ Alters Cell Growth, Neurite Extension, Cardiomyocyte Beating, and Fertilized Egg Constriction—*A. H. Conrad, C. R. Tramp, C. J. Long, D. C. Wells, A. Q. Paulsen, and G. W. Conrad* 1096

CLINICAL MEDICINE

Inner Ear Decompression Sickness Following Altitude Chamber Operation—*Z. Nachum, A. Shupak, O. Spitzer, Z. Sharoni, Y. Ramon, A. Abramovich, and B. Shahal* 1106

Accidental Injection of a U.S. Air Force Aviator by a Pralidoxime Chloride Auto-Injector: A Case Report—*G. K. Yamane* 1110

Case Report of an Aviator with a Single Episode of Altered Consciousness Due to Hymenoptera Hypersensitivity—*M. R. Gee and W. B. Kruyer* 1113

BAUER LECTURE

The 1999 Louis H. Bauer Lecture: Aerospace Medicine Nears the Millennium: Adaptation, Anticipation, and Advancement—*R. P. Hallion* 1117

DECEMBER 1999

ORIGINAL RESEARCH

Human Error and Crew Resource Management Failures in Naval Aviation Mishaps: A Review of U. S. Naval Safety Center Data, 1990–96—*D. A. Wiegmann and S. A. Shappell* 1147

Effects of FOV and Aircraft Bank on Pilot Head Movement and Reversal Errors During Simulated Flight—*J. J. Gallimore, N. G. Brannon, F. R. Patterson, and J. P. Nalepka* 1152

Effect of Time Exposure to High Altitude on Zinc and Copper Concentrations in Human Plasma—*S. B. Rawal, M. V. Singh, A. K. Tyagi, J. Roy, G. P. Dimri, and W. Selvamurthy* 1161

Models of the Apparent Mass of the Seated Human Body Exposed to Horizontal Whole-Body Vibration—*N. J. Mansfield and R. Lundström* 1166

Short Arm (1.9 m) +2.2 Gz Acceleration: Isotonic Exercise Load-O_2 Uptake Relationship—*J. E. Greenleaf, J. L. Chou, N. J. Stad, G. P. N. Leftheriotis, N. F. Arndt, C. G. R. Jackson, S. R. Simonson, and P. R. Barnes* 1173

MRI Cervical Spine Findings in Asymptomatic Fighter Pilots—*M. Petrén-Mallmin, and J. Linder* 1183

Slow Deep Breathing Prevents the Development of Tachygastria and Symptoms of Motion Sickness—*M. D. Jokerst, M. Gatto, R. Fazio, R. M. Stern, and K. L. Koch* 1189

Do Standard Monitoring Sites Affect True Brain Temperature When Hyperthermia is Rapidly Induced and Reversed—*G. M. Eshel and P. Safar* 1193

Repetitive High G Exposure is Associated with Increased Occurrence of Cardiac Valvular Regurgitation—*D. S. Martin, D. S. D'Aunno, M. L. Wood, and D. A. South* 1197

Is the Gauer-Henry Reflex Important for Immersion Diuresis in Men?—*J. E. Greenleaf, K. Shiraki, S. Sagawa, K. Miki, F. Wada, K. Nagaya, R. Torii, and L. C. Keil* 1201

Finger Cold-Induced Vasodilation During Mild Hypothermia, Hyperthermia and at Thermoneutrality—*H. A. M. Daanen and M. B. Ducharme* 1206

Incidence of Epstein-Barr Virus in Astronaut Saliva During Spaceflight—*D. A. Payne, S. K. Mehta, S. K. Tyring, R. P. Stowe, and D. L. Pierson* 1211

CLINICAL MEDICINE

A Descriptive Analysis of Asthma in the U. S. Navy Submarine Force—*J. R. Sims, P. M. Tibbles, and R. P. Jackman* 1214

Acquired Left Bundle Branch Block in an Asymptomatic Fighter Pilot: A Case Report—*D. G. Newman* 1219

Prevalence of the Metabolic Syndrome in Military and Civilian Flying Personnel—*K. G. Kalff, P. Maya-Pelzer, A. Andexer, and H. J. Deuber* 1223

TECHNICAL NOTE

Intracranial Pressure in Microgravity Conditions: Non-Invasive Assessment by Ophthalmodynamometry—*J. Draeger, E. Rumberger, and B. Hechler* 1227

Ejection Associated Injuries within the German Air Force from 1981–1997—*U. Werner* 1230

SCIENCE NEWS NOTE

Dystonia, Botulinum Neurotoxin, and the Aviator—*M. J. Feinberg* 1235
